

REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF INFORMATION AND
COMMUNICATIONS TECHNOLOGY

August 20, 2024

DR. JASON SALIBA
Medical Officer
Pilar District Hospital
Asinan, Pilar, Surigao del Norte

Dear Dr. Saliba:

Greetings from the Department of Information and Communications Technology – Caraga!

The Free Wi-Fi for All - Free Public Internet Access Program, currently referred as “Broadband Ng Masa”, aims to serve the public by making available Free Internet access through Wi-Fi technology in different public places all over the Philippines, pursuant to Republic Act (R.A) No. 10929, also known as the “Free Internet Access in Public Places Act”.

In line with this, DICT Caraga is set to implement the Provision of Internet Connectivity Services (PICS) in Public Places Phase 2, one of the Program’s key strategies for Fiscal Year 2024. This strategy aims to deliver reliable internet connectivity to a variety of publicly owned locations across the Caraga Region such as Barangay Halls, Barangay Health Station, Tourist Spots, Public Schools, etc., which serve as vital community hubs and to expand access and connectivity across the region.

With these in hand, we would like to inform your good office by way of this correspondence that **Pilar District Hospital** has been selected as one of the prospective beneficiaries of the Free Wi-Fi for All Program.

Through this initiative, we would like to seek your confirmation and approval to proceed with the provision of Free Wi-Fi at your office by signing the Conforme below. Kindly review the specified terms, and we would greatly appreciate your support for the program by considering the following:

1. Extend cooperation, resources, and assistance as may be necessary in the course of program establishment, operations, and implementation (i.e., site survey, installation);
2. Provide space at designated locations by the DICT, permit the installation of all public Wi-Fi equipment, and secure the visibility and information collateral materials for the project;
3. Secure the premises and other properties from being damaged and/or stolen for the continuous delivery of the free Wi-Fi Internet service;
4. Permit the DICT personnel, authorized representatives, and service providers to have 24/7 access in public and other pertinent places for carrying out the project implementation and its service;

Regional Operations Office - Region 13 (Caraga)

5. Provide 24/7 power and access to locations that are open to the public;
6. Provide assistance in the fabrication and installation of a Monopole Tower if it is deemed necessary for the deployment; and
7. Assign a focal person or site coordinator.

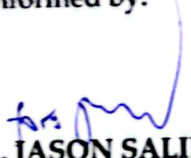

Should you have further inquiries or concerns, you may contact **Engr. Ricardo T. Bacolod Jr.** at his mobile number 09488639929, or email address ricardo.bacolodjr@dict.gov.ph.

Thank you very much and we are looking forward to working with you for a fruitful collaboration toward a more ICT-empowered Philippines.

Sincerely,

 Digitally signed
