ENGR. RICARDO T. BACOLOD
Provincial Team Leader
Department of Information Communication Technology
M. Ortiz Extension, Surigao City

Dear Engr. Bacolod,

Warmest greetings from the Almighty Father!

I'm writing to you on behalf of Cantiasay National High School, an island barangay high school with more than 300 learners from Grade 7 to Grade 12. We would love to be considered for your Free Public Wi-Fi program for public schools.

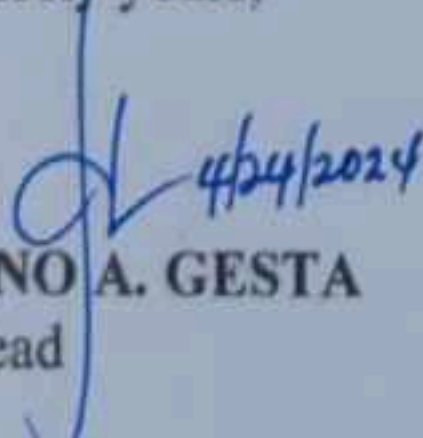

Internet connectivity has been a problem at Cantiasay National High School even before typhoon Odette. As we develop the student's 21st-century skills which include, ICT, we fall short of honing their full potential because of the weak internet connectivity or the lack thereof.

We feel that the project could help us address the problem of developing the ICT skills of our students and, at the same time, aid our dear teachers in delivering the interactive and quality education our students truly deserve. CNHS will forever be grateful for this possible project.

We are looking forward to forging new opportunities for both our students and teachers. Should this collaboration push through, I can be reached at these contacts; 09669716524; catalino.gesta@deped.gov.ph.

Thank you very much.

Very sincerely yours,

CATALINO A. GESTA
School Head
