

DATU ELEMENTARY SCHOOL
Datu, Pilar, Surigao del Norte

MARIO P. CUÑADO

Regional Director, R13

Department of Information and Communications Technology (DICT) Caraga Region

Through:

ENGR. RECARDO T. BACOLOD JR.

Provincial Officer DICT Surigao del Norte

Good Day,

I am writing to you on behalf of **Datu Elementary School**, located in the heart of Barangay Datu, Pilar, Surigao del Norte, to request your assistance in providing free internet access for our school.

As an educational institution dedicated to the development and empowerment of our students, we strive to offer the best resources and opportunities for their academic and personal growth. In today's digital age, access to the internet is essential for effective learning, research, and communication. Unfortunately, many of our students and staff face significant challenges due to the lack of reliable internet connectivity.

We have identified several key areas where internet access would substantially benefit our school community:

1. **Enhanced Learning Opportunities:** Students will have access to a wealth of online educational resources, e-books, and interactive learning platforms.
2. **Teacher Professional Development:** Teachers can participate in online training and development programs to improve their teaching skills and stay updated with the latest educational trends.
3. **Research and Collaboration:** Both students and teachers can engage in research projects, collaborate with peers globally, and stay informed about advancements in their respective fields.
4. **Digital Literacy:** Equipping our students with the necessary digital skills will prepare them for future employment and participation in the global economy.
5. **Online Evaluation System of DepEd:** With the Department of Education's increasing reliance on online evaluation systems for student assessments, having a reliable internet connection is critical for accurate and timely submission of these evaluations. This system is integral to monitoring and improving student performance, and without proper internet access, our ability to participate effectively is hindered.

We believe that with the support of DICT Caraga Region, we can bridge the digital divide and provide our students with the tools they need to succeed. We kindly request your assistance in providing free internet service to our school. Your support will make a significant impact on the quality of education we can offer and will be greatly appreciated by our entire school community.

We are more than willing to collaborate with your office to facilitate this initiative and discuss any necessary arrangements or requirements. Please let us know a convenient time for a meeting to further discuss this request.

Thank you for considering our appeal. We look forward to your positive response and to working together to enhance the educational experiences of our students.

Yours sincerely,

DONALD G. DAPAR

Head Teacher I
Datu Elementary School
