DIR. MARIO P. CUÑADO

Regional Director
DICT Caraga Region

Dear Dir. Cuñado,

Greetings of peace and goodwill!

I hope this letter finds you well. I am writing to you on behalf of the administration, faculty, and learners of Numancia Central Elementary School (NCES), a public elementary school located in Del Carmen, Surigao del Norte.

As part of our continuous efforts to provide quality education and foster an environment that supports 21st-century learning, we have established a computer laboratory intended to enhance the technological skills of our students. Unfortunately, one of the challenges we face is the lack of a reliable and strong internet connection, which is essential in maximizing the potential of this facility.

Our computer laboratory is unable to fully serve the needs of our learners and teachers due to limited internet access. Reliable Wi-Fi connectivity would significantly enhance the delivery of lessons, particularly in accessing online resources, e-learning platforms, and research materials which are critical for the students' academic growth and development.

It is with great humility and sincere hope that we request your kind assistance in providing our school with a free Wi-Fi internet connection through DICT's connectivity programs. This would not only support the educational needs of our students but also aid in the professional development of our teaching staff.

We understand that there are various demands on your office, but we are confident that this support will make a lasting positive impact on the learning experience of our students. Your help would be deeply appreciated by the entire NCES community.

Thank you for considering our request. We look forward to your favorable response and remain hopeful for your continued support in improving the quality of education in our school.

Sincerely,

MARVIC P. CASTRONUEVO
School Principal II
