Surigao del Norte

Sir :

Good day !

I am writing this letter on behalf of Capalayan Elementary School teachers and learners to request the installation of free Wi-Fi in our area. With the increasing reliance on digital platforms for education, work and access to essential services, a stable internet connection has become a critical necessity for our community.

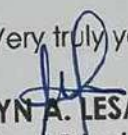

Currently, our school has experience unstable internet connection to poor services from a private internet source and it affects the efficiency of the submission of our reports and the presentation of lessons of our teachers using the ICT. Installing free Wi-Fi would greatly benefit our learners and teachers by enabling them to provide access to vital information, video presentation and conduct research.

We believe that access to internet is a crucial step towards digital inclusion and economic development in our country. Therefore, we kindly request your assistance in providing us free Wi-Fi installation to help bridge the digital divide.

Thank you for considering our request. We are hopeful that this initiative will bring positive change to our school.

We look forward to your positive response.

Very truly yours,

LOVELYN A. LESACA
School Principal-II
