ACTIVITY DESIGN

News Writing Workshop for Effective Communication in DICT Projects

I. BACKGROUND

Republic Act (RA) No. 10844 establishes the DICT as the primary institution responsible for providing ICT facilities, services, and equipment to enhance public service delivery, particularly for the benefit of underserved areas and disadvantaged sectors of society. One of the crucial tasks of the DICT is effective communication of its projects and milestones to the public, which includes providing accurate and timely information regarding key initiatives and developments. This is where news writing plays a critical role, as it ensures that the accomplishments, updates, and services provided by the DICT and its projects reach the broader public.

News writing ensures that progress, such as the launch of the eGovPH app, the implementation of the eLGU system, or updates on the Free Wi-Fi initiative, is documented and communicated effectively. This skill becomes even more critical as the DICT continues to fulfill its role in driving digital transformation, supporting President Ferdinand R. Marcos, Jr.'s vision of efficient, tech-driven governance, and ensuring public transparency and accessibility through well-crafted public communication.

II. OBJECTIVES OF THE PROJECT

To ensure that DICT personnel are committed and equipped with the necessary skills to effectively communicate the achievements of various DICT projects, this workshop aims to achieve the following objectives:

- A. **Enhance Writing Proficiency:** Equip participants with the skills to write clear, concise, and engaging news articles that communicate key updates and milestones of DICT projects to the public.
- B. **Gather and Share Best Practices:** Identify best practices in news writing and storytelling, ensuring that complex technical information from DICT projects is communicated in an accessible and compelling way.
- C. **Identify Communication Gaps:** Pinpoint challenges and areas for improvement in communicating project progress, ensuring that public-facing content is tailored to engage and inform the public effectively.
- D. **Strengthen Public Engagement:** Develop strategies to optimize the dissemination of project news, enhancing public awareness and engagement with DICT's initiatives, supporting the overarching mission of advancing ICT services for national development.

By addressing these objectives, the workshop will support DICT's broader goals of promoting transparency, enhancing public trust, and improving the visibility of its national digital initiatives.

III. PROJECT DESCRIPTION AND IMPLEMENTATION

The News Writing Workshop is a one-day assembly aimed at enhancing the communication skills of DICT personnel involved in various projects. The workshop will focus on equipping participants with the ability to effectively communicate project milestones and updates through clear, engaging news articles. Activities will include presentations on the current state of communication practices, discussions on best strategies, identification of challenges, and the development of recommendations to improve public engagement. Through hands-on exercises, participants will learn to craft impactful stories that highlight the progress of DICT initiatives, ensuring greater public awareness and support for the department's digital transformation efforts.
